

SABINE-NECHES WATERWAY: ENERGY DOMINANCE STARTS HERE

The Sabine-Neches Waterway is America's energy gateway. It is home to numerous manufacturing, refining and petrochemical companies and links to an extensive energy pipeline system, which connects to nearly every state in the country. The waterway is vital for America's military deployment and critical to the nation's security domestically and abroad.

FUELING THE NATION

Current operations of the waterway and industry related sectors supported by the Sabine-Neches Waterway **annually** generate in the United States:

- **\$40 billion** in gross product
- **\$23 billion** in personal income
- **\$4.2 billion** in Federal taxes
- Nearly **375,000** permanent **jobs**

www.navigationdistrict.org

MAINTAINING MOMENTUM

The waterway has not been improved since 1962 – more than 50 years ago. We must invest now to ensure this American asset maintains its momentum and the United States continues to enjoy the benefits.

Deepening the Waterway from 40 to 48 feet will increase transportation efficiencies, thereby:

- 1 Meeting America's growing needs with larger ships**
- 2 Continuing to attract new growth and development for the nation**
- 3 Maximizing throughput capacity, speed and efficiency of military deployment**

CREATING JOBS

The project would create thousands of **jobs**, generate billions of dollars in **economic impact, enhance trade** infrastructure and position the U.S. to compete in the global marketplace.
